Preservation Recommendations

As with all food products, this product is sensitive to excessive light and heat, damaging its typical fragrance.

During transportation and warehouse storage, it is necessary to avoid exposing the product to high temperatures (over 30°C or 86°F) or direct light for extended periods of time.

Legal Requirements

The undersigned herein certifies that this product:

- has been prepared in compliance with the requirements of Section 27, U.S. Code of Federal Regulations supervised by U.S. Government Tax and Trade Bureau;
- contains ingredients approved by the US FDA under the Code of Federal Regulations (CFR) Title 21 and/or are considered generally recognized as safe (GRAS) and are deemed acceptable for use in Food and Beverages under conditions of good manufacturing procedures in general, unless prohibited or restricted by a standard composition, when offered in the United States;
- has undergone all necessary tests and has been approved for human consumption.

The information contained herein is edited and approved by Quality Department.
