| Vinification                                                                                                                                                                                 | Fermentation in stainless steel tanks. Maceration lasts 12-15 days at controlled temperature of 25°C, during which two daily pump-over and three "delestages" on the fifth and seventh day of fermentation are carried out. Malolactic fermentation also takes place in stainless steel. From there the wine goes directly into oak in the spring.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                                      |                                                                    |                                                                                    |            |

|                                                                                                            | <p>This wine is dedicated to the innovative spirit and vision of Count Alberto Marone Cinzano when he planted Cabernet Sauvignon in the early 1980s on the hills of Montalcino. This wine is the pure expression of the best known grape variety in the world married with the climate of the very unique terroir. In the glass you will find all the intensity of the dry and hot Mediterranean summer and if you close your eyes, you might even be able to hear the crickets singing in the background.</p> <p><b>Bouquet:</b><br/>On the nose, pleasant red fruits hints with the classic scents of the cultivar. The bouquet is integrated by spicy notes, especially the vanilla.</p> <p><b>Flavour:</b><br/>On the palate the tannins are soft and pleasantly fresh, with a good quantity of red fruit balanced with the final spiciness. The aftertaste is long and persistent, vigorous but delicate.</p> |                                                      |                                                                    |                                                                                    |            |
