Bottle Size	70	lt	Product Name	GINIU GIN		
Alcohol by Volume	40	%				
Production Area	SARDEGNA, ITALY					
Grapes (if applicable)	N/A					
Colour	Transparent and clear		Alivini Product Code	GIN-CARTA-----02D		
Category	Gin					
Distillation	Pot Still					
Method	The juniper berries are harvested and infused in alcohol for two months. The discontinuous distillation is carried out in copper stills, where the infusion is slowly warmed, and the thermal conditions are kept just above the alcohol evaporation temperature. The obtained distilled liquor is clear, with a high ABV of about 80%. After resting for at least a month to achieve complete homogenisation, the product is bottled after dilution to bring the ABV to 40%.					
Product Picture	Tasting Notes and Pairing					
	An aroma typical of gin, with pronounced and elegant recalls of Sardinian spontaneous herbs, immediately expressing its strong territorial identity. On the palate, it is savoury, delicate, and remarkably smooth, offering a pure and authentic expression of gin in which the essence of Sardinia is clearly defined. GINIU takes its name from an ancient local tradition dating back to the years following the Second World War, when juniper distillations were carried out clandestinely in Sardinian courtyards, often under the cover of winter nights. Distilled from juniper cones, whose plant is known locally as giniperu, GINIU revives the historic name once used to disguise illegal distillation from law enforcement, honouring a practice that survived until the early 1960s. Revived in 2013 by Elio Carta as a tribute to this heritage, GINIU is today recognised among the top Italian gins for quality. Its refined, savoury profile makes it excellent enjoyed on its own or in a beautifully balanced Gin & Tonic, prepared with a neutral tonic water to allow its juniper-driven character to shine.					
INGREDIENTS			VALUES			
List of Ingredients	%		ENERGY		Each 100ml	
Infusion of juniper berries	45.0		KJ		915	
Alcohol	40.0		Kcal		219	
Water	15.0
